

## 2005-2013 WINDOW COVERS

### BEFORE BEGINNING

Be sure to thoroughly clean the quarter window glass to ensure a clean and secure adhesive bond.

**ESTIMATED TIME** 30 Minutes

Using the provided tape kit, apply the tape to the back of the cover as shown above.

Starting from the rear, place the window cover over the glass. Keep forward pressure on the cover as you lay the front in place, this will ensure the part is seated properly over the glass.

Use the provided alcohol pad to wipe down the back side of the window cover and the quarter window glass where the tape will adhere.

Then use the provided adhesion promoter to wipe down the area of the quarter window glass where the tape will adhere, this will ensure a strong bond.

\*\*\*To ensure a smooth installation, it's always good to go through the installation process before removing the tape.\*\*\*
