

## Power Plug Installation:

### Required Tools:

- ✓ None!

Installation Time: Less than 5 minutes

**\*Note:** Photos show installation on a 05-09 Mustang; however, install is the same for all style plugs and year Mustangs.

**BEFORE:**

### Installation Instructions:

1. Grab hold of the factory power plug and remove it from its slot in the center dash.
2. Take your newly purchased power plug and push it into the same slot you just took the factory plug out of. Turn the plug until the engraving (if engraved) is showing level left to right.

**AFTER:**
