

**Chrome Seat Release Levers
2005-2010 Mustang
PN: 41192, 15524**

Thank you for purchasing Modern Billet's Chrome Seat Release Levers for your 2005-2010 Mustang. Our billet pieces are made from the highest quality 6061 T6 Billet aluminum that is then triple chrome plated and polished to a brilliant shine. These Chrome Seat Release Levers will certainly help finish what Ford started with the classic redesign of the 2005+ Mustangs.

To install, simply pull factory seat release lever out and replace with Chrome Seat Adjuster Lever. Cleaning should be performed with a mild cleaner and soft, clean terry cloth.

We at Modern Billet are confident that you will appreciate both the quality and function of our billet interior pieces and look forward to your future business. Modern Billet's entire line of billet interior pieces, billet grilles, and body parts can be seen online at AmericanMuscle.com
