

## Installation Instructions for Upper Replacement Grille (05-09 V6 Mustang)

### Tools Required:

Phillips Head Screwdriver  
Flat Head Screwdriver

### Step 1:

Remove the 6 plastic retaining clips holding the upper plastic radiator cover to the radiator support and remove it from the vehicle.

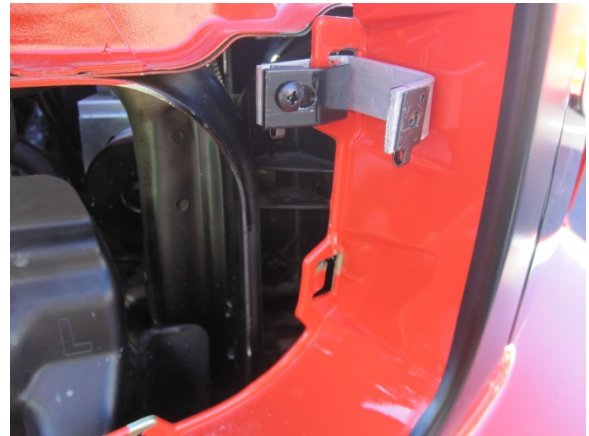

### Step 2:

Remove the grille by prying gently on the bumper cover tabs holding the grille and pulling outwards as shown.

### Step 3:

Install the U-Clips on the taller side of each U-Bracket. Place the shorter two of the supplied U-Brackets through the upper grille tab on each side as shown. Secure using the provided screws and holding tabs. Once secure, install another U-Clip on the shorter side of each bracket as shown.

### Step 4:

Place the longer two of the supplied U-Brackets through the lower grille tabs as shown. Secure using the provided screws and holding tabs. Once secure, install another U-Clip on the shorter side of each bracket as shown.

**Step 5:**

Once all four U-Brackets are secure, place the billet grille in the grille opening making sure to align the holes in the grille with the U-Clips on the brackets.

**Step 6:**

Use the supplied screws to secure the billet grille to the brackets as shown.

**Step 7:**

Re-install the radiator cover removed in Step 1 to complete the installation.
