

2005-2009 GT Diffuser

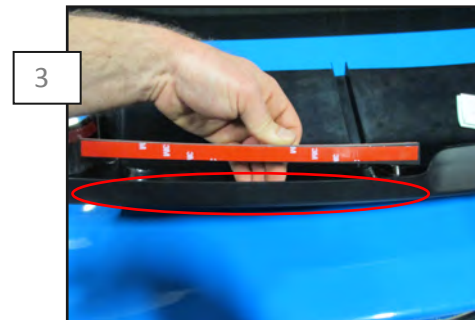

REQUIRED Alcohol Wipes 2 - Bumper Brackets
 Adhesion Promoter 2 - Lower Brackets
 11mm Socket and Ratchet

1
Clean Bumper and wipe the areas circled with supplied alcohol wipes.

2
**Note the Orientation of the mounting tab, they are side specific. This is the left side.

3
Prep the Diffuser with the alcohol wipe and adhesion promoter anywhere that the diffuser tape makes contact to bumper.

4
Press mounting tab to diffuser so that only the tape is visible, otherwise the tab will hold the diffuser off the bumper.

5
Center the diffuser on the bumper and apply firm even pressure on tape surfaces. Following the above sequence.

6
Mount the lower tabs by first removing the 11mm bolt, installing the tab and then press the tab against the diffuser.
