HOUR BULB LIFE

DESIGNED, ENGINEERED, AND TESTED IN  
SAINT LOUIS MISSOURI USA

## FEATURES

- High-brightness LED technology
- Replaces any mini-wedge style incandescent bulb
- Low power consumption compared to factory bulb
- New, advanced bulb design for high reliability

## INSTALLATION

1. Unplug factory bulb from socket.
2. Insert new LED bulb into socket. Enjoy!

## TROUBLESHOOTING

1. If the bulb does not light up, unplug it and reinstall.
2. Make sure the bulb is making full contact in the socket, by adjusting metal contact pins.
3. Contact Diode Dynamics directly for assistance:  
314-205-3035 or [contact@diodedynamics.com](mailto:contact@diodedynamics.com)
