INSTALLATION INSTRUCTIONS

KIT CONTENTS:

QTY	DESCRIPTION	PART NUMBER
2	Front Spring	6110021
2	Rear Spring	6120021

PLEASE READ THESE INSTRUCTIONS COMPLETELY BEFORE INSTALLATION.

NOTES

- Installation of any Hurst Spring Kit should be performed **ONLY** by a qualified mechanic with significant experience in removal and installation of suspension springs.
- Never work on a vehicle unless it is properly supported.
- Never use an impact gun to remove or install strut main shaft components.
- Any Hurst part number starting with "611" is a front spring, any Hurst part number starting with "612" is a rear spring.
- All springs should be installed with the Hurst logo right side up, and all original isolators, dampers, etc, should be retained.
- For MacPherson Strut front suspension - mark the upper perch in relation to the lower before disassembly. Once the springs have been installed, verify the orientation has remained the same.
- With installation complete, always check (and adjust if required):
Alignment - Camber/Castor/Toe
Tire/Wheel to Fender Clearance
Brake line Clearance & Strain Relief
Wheel Speed Sensor Wires & Strain Relief
- During installation, any bushed pivot points **MUST** be torqued with the full weight of the vehicle on the suspension. This is to avoid bushing pre-load. Failure to do so can result in uneven lowering, and bushing damage. This is easiest to accomplish with a drive-on type hoist.
- Special Tools are required for the installation of this kit. Please refer to the factory service manual for a complete listing of special tools required, as well as the full procedure for safely removing the springs.

Customer Assistance Helpline

HURST WARRANTY INFORMATION

This warranty covers the original purchasing consumer. This warranty is limited to repair or replacement by Hurst Performance of any Hurst Performance Product that fails because of a defect in materials or workmanship. Implied warranty: Any warranties implied by law are limited to the duration of this warranty, (except in those states where prohibited by law).

HURST PERFORMANCE SPRING WARRANTY COVERAGE

- 1 Million Mile Structural / 90 Day Finish - All Hurst suspension springs are covered for 1 million miles from the date of install against any structural defects, and 90 days against defects in finish to the original purchaser, (not warranted against normal wear, misuse, or abuse).

WHAT IS NOT COVERED

- Failure of a Hurst Performance Product due to misapplication, improper installation or maintenance, misuse, abuse, unauthorized repairs, accidents, or modifications to the original design.
- Removal or replacement costs.
- Damage to related components.
- Costs incurred due to downtime of vehicle, towing cost or transportation costs.
- Normal wear and tear, including stone chips, scratches made during install.
- Products used for racing – except shifters.
- Melted shifter cables.
- Shipping costs.

PRODUCT RETURN PROCEDURE

In the event a problem develops with a Hurst product, contact Hurst Performance Products: (707) 544-4761 or Fax (707) 303-9254. Ask for customer service. It may be determined the product will have to be returned to Hurst. A return material authorization number (RMA number) will be assigned to you. The retail store or customer should return the product in question, freight prepaid. It must be accompanied with the original purchase receipt and a clear description of the problem. If the product is determined to be defective and within the warranty period, Hurst will repair, replace or issue credit to the distributor at Hurst's option. Any repaired or replaced product will be returned to the sender freight prepaid via UPS. This limited warranty may give you specific legal rights, which may vary from state to state.
