# 1996-2010 Mustang 16-Valve & 32-Valve POWER STEERING CAP CHROME-PLATED COVER

This Mustang power steering cap chrome-plated cover slips over the existing original cap. Do NOT remove your original cap!

## **INSTALLATION INSTRUCTIONS -**

Be sure the engine is off and cool.

Carefully clean and dry the original cap. Trial fit the cover over the original cap. If it is loose, we recommend you put a small piece of masking tape on the lip of the power steering cap, so it will stay secure. Check the chrome-plated cover again for fit, as you want it to seat snug. If it is not snug, use a little more masking tape until tight. Once installed, the cover will stay in position.

## **CLEANING INSTRUCTIONS -**

To maintain appearance, simply use a water or a mild chrome polish on a 100% cotton cloth or micro cloth to clean or polish when necessary.
