

# "TURBOCHARGED" EMBLEM

TURBOCHARGED

This original, brand new emblem can be affixed any where, but would look good on either or both fenders (*buy two*) or the trunk lid. It would also make a unique addition to any car show display.

Simply peel off the protective sheet to expose the self-adhesive backing and affix the emblem to any clean, dry surface. For best adhesion, be sure the temperature is 50° or warmer.
