

## Ford Racing Cargo Area Protector - Embossed Pony Logo (10-14 All)

**Time Necessary:** Under 5 mins.

**Tools Required:**

- No tools required unless you are installing in a convertible in which case you may need an exacto knife

**Prep:**

- Ensure that the area of installation has been thoroughly cleaned before starting

**Installation:**

1. Place the rolled up Ford Racing Cargo Area Protector in the center of your trunk.

2. Roll out Ford Racing Cargo Area Protector from the center to right side of the trunk.

3. Repeat process with the left side.

4. Allow Ford Racing Cargo Area Protector to relax into shape as it may take a couple of days since it was rolled. (If you own a convertible you can use the exacto knife to trim pre marked areas for proper fit).

***Post installation***
