

## Power Mirror Cover Resto Kit (87-93 all)

**Time Needed:** About 10 min

**Tools Needed:** Phillips screwdriver

If you are missing the power mirror cover and just need to install a new one skip to the install procedure.

### Removal Procedure:

**Step 1:** Using a Phillips screwdriver remove the screw holding the cover on by turning the screw counter clockwise.

**Step 2:** with the screw removed you should now be able to take the mirror cover off the door.

**Step 3:** Repeat for the other side (passenger/driver)

### **Install Procedure:**

**Step 1:** Take your new Power mirror cover and position it making sure the hole lines up for the screw.

**Step 2:** Screw in the new screw that came with the kit to hold your mirror cover onto the door.

**Step 3:** Repeat for the other side (passenger/driver)

**Step 4:** Enjoy your New/Replaced Power mirror covers
